Independent Auditors' Review Report

To the Board of Directors and Shareholders of

HOWTEH TECHNOLOGY CO., LTD.

Introduction

We have reviewed the accompanying consolidated balance sheets of HOWTEH TECHNOLOGY CO., LTD. (the "Company") and its subsidiaries (the "Group") as of September 30, 2024 and 2023, and the related consolidated statements of comprehensive income for the three months and the nine months ended September 30, 2024 and 2023, the consolidated statements of changes in equity and of cash flows for the nine months then ended, and the related notes to the consolidated financial statements, including a summary of significant accounting policies. Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, "Interim Financial Reporting" that came into effect as endorsed by the Financial Supervisory Commission. Our responsibility is to express a conclusion on these consolidated financial statements based on our reviews.

Scope of Review

Except as explained in the following paragraph, we conducted our reviews in accordance with the Standard on Review Engagements 2410, "Review of Financial Information Performed by the Independent Auditor of the Entity" of the Republic of China. A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Gualified Conclusion

As explained in Note 4(3), the financial statements of certain insignificant subsidiaries were not reviewed by independent auditors. Those statements reflect total assets of NT$311,335 thousand and NT$295,086 thousand, constuting 12% and 11%, of the consolidated total assets respectively, and total liabilities of NT$22,540 thousand and NT$14,500 thousand, constuting 2% and 1%, of the consolidated total liabilities as of September 30, 2024 and 2023, respectively and total comprehensive income (loss) of NT$1,626 thousand, NT$7,453 thousand, NT$5,711 thousand, and NT$(7,894) thousand, constuting (6)%, 10%, 8%, and (3)%, of the consolidated total comprehensive income (loss) for the three months and nine months ended, 2024 and 2023, respectively. The information related to above subsidiaries disclosed in Note 13 was not reviewed by indepent auditors either.

Qualified Conclusion

Except for the effect of such adjustments, if any, as might have been determined to be necessary had the financial statements of certain insignificant subsidiaries and the information been reviewed by independent auditors as described in the Basis for qualified conclusion section above, based on our reviews, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Group as of September 30, 2024 and 2023, and its consolidated financial performance for the three months and nine months ended September 30, 2024 and 2023, and of its consilidated cash flows for the nine months then ended, in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standard 34, "Interim Financial Reporting" that came into effect as endorsed by the Financial Supervisory Commission of the Republic of China.

1. HISTORY AND ORGANIZATION

Howtech Technology Co., Ltd. (referred to “the Company”) which was formally known as Howtech Enterprise Co., Ltd, has applied to change its name to Howtech Technology Co., Ltd. In December 28, 2000, and was incorporated in September 23, 1978. The Company is engaged mainly in trading and agency business in passive electronic components, active electronic components, integrated circuit carrier board equipment, chemicals and raw materials, semiconductors and optical equipment. The Company’s common shares were publicly listed on the Taipei Exchange (TPEX) on March 25, 2004. The Company’s registered office and the main business location is at 6F, No. 25, Section 1, Dunhua South Road, Taipei City, Republic of China (R.O.C.).

2. THE AUTHORIZATION OF FINANCIAL STATEMENTS

The consolidated financial statements of Howtech Technology Co., Ltd. and subsidiaries (referred to “the Group”) were authorized for issuance by the Board of Directors on November 13, 2024.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Changes in accounting policies resulting from applying for the first-time certain standards and amendments

The Group applied for the first time International Financial Reporting Standards, International Accounting Standards, and Interpretations issued, revised or amended which are recognized by Financial Supervisory Commission (“FSC”) and become effective for annual periods beginning on or after 1 January 2024. The adoption of these new standards and amendments had no material impact on the Group.

(2) Standards or interpretations issued, revised or amended, International Accounting Standard Board “IASB” which are not endorsed by FSC, and adopted by the Group as at the end of the reporting period are listed below.

	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
a	Lack of Exchangeability - Amendments to IAS 21	January 1, 2025

(a) Lack of Exchangeability - Amendments to IAS 21

These amendments specify whether a currency is exchangeable into another currency and, when it is not, to determining the exchange rate to use and the disclosures to provide.

The above amendments are applicable to fiscal years starting after January 1, 2025 and interpretations have no material impact on the Group.

(3) Standards or interpretations issued, revised or amended, by IASB which are not endorsed by FSC, and not yet adopted by the Group as at the end of the reporting period are listed below.

Items	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
a	IFRS 10 "Consolidated Financial Statements" and IAS 28 "Investments in Associates and Joint Ventures" – Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures	To be determined by IASB
b	IFRS 17 "Insurance Contracts"	January 1, 2023
c	IFRS 18 "Presentation and Disclosure in Financial Statements"	January 1, 2027
d	Disclosure Initiative – Subsidiaries without Public Accountability: Disclosures (IFRS 19)	January 1, 2027
e	Amendments to the Classification and Measurement of Financial Instruments – Amendments to IFRS 9 and IFRS 7	January 1, 2026
f	Annual Improvements to IFRS Accounting Standards-Volume 11	January 1, 2026

(a) IFRS 10 "Consolidated Financial Statements" and IAS 28 "Investments in Associates and Joint Ventures" - Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures.

The amendments address the inconsistency between the requirements in IFRS 10 *Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures*, in dealing with the loss of control of a subsidiary that is contributed to an associate or a joint venture. IAS 28 restricts gains and losses arising from contributions of non-monetary assets to an associate or a joint venture to the extent of the interest attributable to the other equity holders in the associate or joint ventures. IFRS 10 requires full profit or loss recognition on the loss of control of the subsidiary. IAS 28 was amended so that the gain or loss resulting from the sale or contribution of assets that constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized in full.

IFRS 10 was also amended so that the gains or loss resulting from the sale or contribution of a subsidiary that does not constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized only to the extent of the unrelated investors' interests in the associate or joint venture.

(b) IFRS 17 “Insurance Contracts”

IFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects (including recognition, measurement, presentation and disclosure requirements). The core of IFRS 17 is the General (building block) Model, under this model, on initial recognition, an entity shall measure a group of insurance contracts at the total of the fulfilment cash flows and the contractual service margin. The carrying amount of a group of insurance contracts at the end of each reporting period shall be the sum of the liability for remaining coverage and the liability for incurred claims.

Other than the General Model, the standard also provides a specific adaptation for contracts with direct participation features (the Variable Fee Approach) and a simplified approach (Premium Allocation Approach) mainly for short-duration contracts.

IFRS 17 was issued in May 2017 and it was amended in 2020 and 2022. The amendments include deferral of the date of initial application of IFRS 17 by two years to annual beginning on or after January 1 , 2023 (from the original effective date of January 1, 2022); provide additional transition reliefs; simplify some requirements to reduce the costs of applying IFRS 17 and revise some requirements to make the results easier to explain. IFRS 17 replaces an interim Standard – IFRS 4 Insurance Contracts – from annual reporting periods beginning on or after January 1, 2023.

(c) IFRS 18 “Presentation and Disclosure in Financial Statements” (IFRS 18)

IFRS 18 replace IAS 1 Presentation of Financial statements. The main changes are as below:

(i) Improved comparability in the statement of profit or loss (income statement)

IFRS 18 requires entities to classify all income and expenses within their statement of profit or loss into one of five categories: operating; investing; financing; income taxes; and discontinued operations. The first three categories are new, to improve the structure of the income statement, and requires all entities to provide new defined subtotals, including operating profit or loss. The improved structure and new subtotals will give investors a consistent starting point for analyzing entities’ performance and make it easier to compare entities.

(ii) Enhanced transparency of management-defined performance measures

IFRS 18 requires entities to disclose explanations of those entity-specific measures that are related to the income statement, referred to as management-defined performance measures.

(iii) Useful grouping of information in the financial statements

IFRS 18 sets out enhanced guidance on how to organize information and whether to provide it in the primary financial statements or in the notes. The changes are expected to provide more detailed and useful information. IFRS 18 also requires entities to provide more transparency about operating expenses, helping investors to find and understand the information they need.

(d) Disclosure Initiative –Subsidiaries without Public Accountability: Disclosures (IFRS 19)

This standard permits subsidiaries without public accountability to provide reduced disclosures when applying IFRS Accounting Standards in their financial statements. IFRS 19 is optional for subsidiaries that are eligible and sets out the disclosure requirements for subsidiaries that elect to apply it.

(e) Amendments to the Classification and Measurement of Financial Instruments – Amendments to IFRS 9 and IFRS 7

The amendments include:

(1) Clarify that a financial liability is derecognised on the settlement date and describe the accounting treatment for settlement of financial liabilities using an electronic payment system before the settlement date.

(2) Clarify how to assess the contractual cash flow characteristics of financial assets that include environmental, social and governance (ESG)-linked features and other similar contingent features.

(3) Clarify the treatment of non-recourse assets and contractually linked instruments.

(4) Require additional disclosures in IFRS 7 for financial assets and liabilities with contractual terms that reference a contingent event (including those that are ESG-linked), and equity instruments classified at fair value through other comprehensive income.

(f) Annual Improvements to IFRS Accounting Standards – Volume 11

(1) Amendments to IFRS 1
The amendments mainly improve the consistency in wording between first-time adoption of IFRS and requirements for hedge accounting in IFRS 9.

(2) Amendments to IFRS 7
The amendments update an obsolete cross-reference relating to gain or loss on derecognition.

(3) Amendments to Guidance on implementing IFRS 7

The amendments improve some of the wordings in the implementation guidance, including the introduction, disclosure of deferred difference between fair value and transaction price and credit risk disclosures.

(4) Amendments to IFRS 9

The amendments add a cross-reference to resolve potential confusion for a lessee applying the derecognition requirements and clarify the term “transaction price”.

(5) Amendments to IFRS 10

The amendments remove the inconsistency between paragraphs B73 and B74 of IFRS 10.

(6) Amendments to IAS 7

The amendments remove a reference to “cost method” in paragraph 37 of IAS 7.

The abovementioned standards and interpretations issued by IASB have not yet endorsed by FSC at the date when the Group’s financial statements were authorized for issue, the local effective dates are to be determined by FSC. As the Group is still currently determining the potential impact of the new or amended standards and interpretations listed under (c), it is not practicable to estimate their impact on the Group at this point in time. The remaining new or amended standards and interpretations have no material impact on the Group.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(1) Statement of compliance

The consolidated financial statements of the Group nine months ended September 30, 2024 and 2023 have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers (“the Regulations”) and IAS 34 “Interim Financial Reporting” as endorsed and became effective by the FSC.

(2) Basis of preparation

The consolidated financial statements have been prepared on a historical cost basis, except for financial instruments that have been measured at fair value. The consolidated financial statements are presented in thousands of New Taiwan Dollars (“NT$”) unless otherwise specified.

(3) Basis of consolidation

Preparation principle of consolidated financial statements

Control is achieved when the Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Company controls an investee if and only if the Company has:

(A) Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
(B) Exposure, or rights, to variable returns from its involvement with the investee, and
(C) The ability to use its power over the investee to affect its returns

When the Company has less than a majority of the voting or similar rights of an investee, the Company considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

(A) The contractual arrangement with the other vote holders of the investee
(B) Rights arising from other contractual arrangements
(C) The Company's voting rights and potential voting rights

The Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control.

Subsidiaries are fully consolidated from the acquisition date, being the date on which the Company obtains control, and continue to be consolidated until the date that such control ceases. The financial statements of the subsidiaries are prepared for the same reporting period as the parent company, using uniform accounting policies. All intra-group balances, income and expenses, unrealized gains and losses and dividends resulting from intra-group transactions are eliminated in full.

A change in the ownership interest of a subsidiary, without a change of control, is accounted for as an equity transaction.

Total comprehensive income of the subsidiaries is attributed to the owners of the parent and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

If the Company loses control of a subsidiary, it:

(A) Derecognizes the assets (including goodwill) and liabilities of the subsidiary;
(B) Derecognizes the carrying amount of any non-controlling interest;
(C) Recognizes the fair value of the consideration received;

(D) Recognizes the fair value of any investment retained;

(E) Reclassifies the parent's share of components previously recognized in other comprehensive income to profit or loss or retained earnings according to IFRS.

(F) Recognizes any surplus or deficit in profit or loss.

The consolidated entities are listed as follows:

Investor	Subsidiary	Main business	Percentage of Ownership (%) , As of		
			September 30,2024	December 31,2023	September 30,2023
The Company	Giteh Electronic Industries Co.,Ltd.	Buy and Sale	100%	100%	100%
The Company	Howteh International Inc.	Buy and Sale and Investment	100%	100%	100%
The Company	KunShan Howteh International Trading Inc.	Buy and Sale	100%	100%	100%
Giteh Electronic Industries Co.,Ltd.	ShenZhen Howteh Technology Co., Ltd.	Buy and Sale	100%	100%	100%
Howteh International Inc.	ShangHai Howteh International Trading Inc.	Buy and Sale	100%	100%	100%
Howteh International Inc.	Howteh Vietnam Co., Ltd.	Buy and Sale	100%	100%	100%

The financial statements of certain consolidated subsidiaries listed above were not been reviewed by auditors. As of September 30, 2024 and 2023, those statements reflect total assets of NT$311,335 thousand and NT$295,086 thousand, and the related total liabilities amounted to $22,540 and $14,500, respectively. The comprehensive income (loss) of these subsidiaries amoumted to $1,626, $7,453, $5,711 and $(7,894) for the three months and nine months ended September 30, 2024 and 2023 respectively.

(4) Foreign currency transactions

The Group's consolidated financial statements are presented in New Taiwan Dollar, which is the parent company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

Transactions in foreign currencies are initially recorded by the Group's entities at their respective functional currency rates prevailing at the date of the transaction. At the reporting date, monetary items denominated in foreign currencies are retranslated at the prevailing functional currency closing rate of exchange. Non-monetary items measured at fair value in a foreign currency are retranslated using the exchange rates at the date when the fair value is determined; and non-monetary items measured at historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions.
All exchange differences arising from the settlement or translation of monetary items are taken to profit or loss in the period in which they arise except for the following:

(A) Exchange differences arising from foreign currency borrowings for an acquisition of a qualifying asset to the extent that they are regarded as an adjustment to interest costs are included in the borrowing costs that are eligible for capitalization.

(B) Foreign currency items within the scope of IFRS 9 Financial Instruments are accounted for based on the accounting policy for financial instruments.

(C) Exchange differences arising on a monetary item that forms part of a reporting entity's net investment in a foreign operation is recognized initially in other comprehensive income and reclassified from equity to profit or loss on disposal of the net investment.

When a gain or loss on a non-monetary item is recognized in other comprehensive income, any exchange component of that gain or loss is recognized in other comprehensive income. When a gain or loss on a non-monetary item is recognized in profit or loss, any exchange component of that gain or loss is recognized in profit or loss.

(5) Translation of financial statements in foreign currency

The assets and liabilities of foreign operations are translated into New Taiwan dollars at the closing rate of exchange prevailing at the balance sheet date and their income and expenses are translated at an average rate for the period. The exchange differences arising on the translation are recognized in other comprehensive income under exchange differences on translation of foreign operations. On disposal of the foreign operation, cumulative amount of the exchange differences recognized in other comprehensive income under separate component of equity is reclassified from equity to profit or loss when recognizing the disposal gain/loss.

On the partial disposal of a subsidiary that includes a foreign operation that does not result in a loss of control, the proportionate share of the cumulative amount of the exchange differences recognized in other comprehensive income is re-attributed to the NCIs in that foreign operation, instead of recognized in profit or loss. In partial disposal of an associate or jointly controlled entity that includes a foreign operation that does not result in a loss of significant influence or joint control, only the proportionate share of the cumulative amount of the exchange differences recognized in other comprehensive income is reclassified to profit or loss.

Goodwill generated due to acquisition of foreign operation by the group and fair value adjustments made towards the carrying value of foreign operations' assets and liabilities , are regarded as the assets and liabilities which belongs to the foreign operation and is reported in its own functional currency.

(6) Current and non-current distinction

An asset is classified as current when:

(A) The Group expects to realize the asset, or intends to sell or consume it, in its normal operating cycle.
(B) The Group holds the asset primarily for the purpose of trading.
(C) The Group expects to realize the asset within twelve months after the reporting period.
(D) The asset is cash or cash equivalent, unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:

(A) The Group expects to settle the liability in its normal operating cycle.
(B) The Group holds the liability primarily for the purpose of trading.
(C) The liability is due to be settled within twelve months after the reporting period.
(D) The Group does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

(7) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits and short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value (including time deposits with maturing of less than twelve months).

(8) Financial instruments

Financial assets and financial liabilities are recognized when the Group becomes a party to the contractual provisions of the instrument.

The Group determines the classification of its financial assets at initial recognition. In accordance with IFRS 9 and the Regulations, financial assets of the Group are classified as financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income, financial assets measured at amortized cost and notes, accounts and other receivables. All financial assets are recognized initially at fair value plus, in the case of investments not at fair value through profit or loss, directly attributable costs. Financial assets carried at fair value through profit or loss are initially recognized at fair value, and transaction costs are expensed in the income statement.

(A) Financial assets: Recognition and Measurement

Purchase or sale of financial assets is recognized using trade date accounting.

The Group classified financial assets as subsequently measured at amortized cost, fair value through other comprehensive income or fair value through profit or loss on the basis of both:

(a) The Group's business model for managing the financial assets and
(b) The contractual cash flow characteristics of the financial asset.

<u>Financial assets measured at amortized cost</u>

A financial asset is measured at amortized cost if both of the following conditions are met and presented as note receivables, trade receivables financial assets measured at amortized cost and other receivables etc., on balance sheet as at the reporting date:

(a) The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
(b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Such financial assets are subsequently measured at amortized cost (the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount and the maturity amount and adjusted for any loss allowance) and is not part of a hedging relationship. A gain or loss is recognized in profit or loss when the financial asset is derecognized, through the amortization process or in order to recognise the impairment gains or losses.

Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:

(a) Purchased or originated credit-impaired financial assets. For those financial assets, the Group applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.
(b) Financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Group applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

Financial asset measured at fair value through other comprehensive income

A financial asset is measured at fair value through other comprehensive income if both of the following conditions are met:

(a) The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and
(b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

Recognition of gain or loss on a financial asset measured at fair value through other comprehensive income are described as below:

(a) A gain or loss on a financial asset measured at fair value through other comprehensive income recognized in other comprehensive income, except for impairment gains or losses and foreign exchange gains and losses, until the financial asset is derecognized or reclassified.
(b) When the financial asset is derecognized the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment.
(c) Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:

    (I) Purchased or originated credit-impaired financial assets. For those financial assets, the Group applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.
    (II) Financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Group applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

Besides, for certain equity instrument within the scope of IFRS 9 that is neither held for trading nor contingent consideration recognized by an acquirer in a business combination to which IFRS 3 applies, the Group made an irrevocable elction to present the changes of the fair value in other comprehensive income at initial recognition. Amounts presented in other comprehensive income are not be subsequently transferred to profit or loss (when disposal of such equity instrument, its cumulated amount included in other components of equity is transferred directly to the retained earnings) and these investments should be presented as financial assets measured at fair value through other comprehensive income on balance sheet. Dividends on such investment are recognized in profit or loss unless the dividends clearly represents a recovery of part of the cost of investment.

(B) Impairment of financial assets

The Group is recognized a loss allowance for expected credit losses on financial asset measured at amortized cost.

The Group measures expected credit losses of a financial instrument in a way that reflects:

(a) An unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
(b) The time value of money; and
(c) Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The loss allowance is measures as follow:

A. At an amount equal to 12-month expected credit losses: the credit risk on a financial asset has not increased significantly since initial recognition or the financial asset is determined to have low credit risk at the reporting date. In addition, the Group measures the loss allowance for a financial asset at an amount equal to lifetime expected credit losses in the previous reporting period, but determines at the current reporting date that condition is no longer met.

B. At an amount equal to the lifetime expected credit losses: the credit risk on a financial asset has increased significantly since initial recognition or financial asset that is purchased or originated credit-impaired financial asset.

C. For trade receivables or contract assets arising from transactions within the scope of IFRS 15, the Group measures the loss allowance at an amount equal to lifetime expected credit losses.

D. For lease receivables arising from transactions within the scope of IFRS 16, the Group measures the loss allowance at an amount equal to lifetime expected credit losses.

At each reporting date, the Group needs to assess whether the credit risk on a financial asset has been increased significantly since initial recognition by comparing the risk of abdefault occurring at the reporting date and the risk of default occurring at initial recognition. Please refer to Note 12 for further details on credit risk.

(C) Derecognition of financial assets

A financial asset is derecognized when:

(a) The rights to receive cash flows from the asset have expired

(b) The Group has transferred the asset and substantially all the risks and rewards of the asset have been transferre
(c) The Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset in its entirety, the difference between the carrying amount and the consideration received or receivable including any cumulative gain or loss that had been recognized in other comprehensive income, is recognized in profit or loss.

(D) Financial liabilities and equity

<u>Classification between liabilities or equity</u>

The Group classifies the instrument issued as a financial liability or an equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial liability, and an equity instrument

<u>Equity instruments</u>

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. The transaction costs of an equity transaction are accounted for as a deduction from issuing price.

<u>Financial liabilities</u>

Financial liabilities within the scope of IFRS 9 Financial Instruments are classified as financial liabilities at fair value through profit or loss or financial liabilities measured at amortized cost upon initial recognition.

<u>Financial liabilities at amortized cost</u>

Financial liabilities measured at amortized cost include interest bearing loans and borrowings that are subsequently measured using the effective interest rate method after initial recognition. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the effective interest rate method amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or transaction costs.

<u>Derecognition of financial liabilities</u>

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified (whether or not attributable to the financial difficulty of the debtor), such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

(E) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the balance sheet if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

(9) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

(A) In the principal market for the asset or liability, or
(B) In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

(10) Inventories

Inventories are valued at lower of cost or net realizable value item by item.

Costs incurred in bringing each inventory to its present location and conditions are accounted for as follows:

Cost is determined using the weighted-averoge method.
Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.
Rendering of services is accounted in accordance with IFRS 15 and not within the scope of inventories.

(11) Property, plant and equipment

Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of dismantling and removing the item and restoring the site on which it is located and borrowing costs for construction in progress if the recognition criteria are met. Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. When significant parts of property, plant and equipment are required to be replaced in intervals, the Group recognized such parts as individual assets with specific useful lives and depreciation, respectively. The carrying amount of those parts that are replaced is derecognized in accordance with the derecognition provisions of IAS 16 "Property, plant and equipment". When a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Depreciation is calculated on a straight-line basis over the estimated economic lives of the following assets:

Buildings	60 years
Machinery and equipment	5 years
Office equipment	3～5 years
Other equipment	3 years

An item of property, plant and equipment or any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is recognized in profit or loss.

The asset's residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

(12) Investment property

The Group's owned investment properties are measured initially at cost, including transaction costs. The carrying amount includes the cost of replacing part of an existing investment property at the time that cost is incurred if the recognition criteria are met and excludes the costs of day-to-day servicing of an investment property. Subsequent to initial recognition, other than those that meet the criteria to be classified as held for sale (or are included in a disposal group that is classified as held for sale) in accordance with IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations*, investment properties are measured using the cost model in accordance with the requirements of IAS 16 *Property, plant and equipment* for that model. If investment properties are held by a lessee as right-of-use assets and is not held for sale in accordance with IFRS 5, investment properties are measured in accordance with the requirements of IFRS 16.

Depreciation is calculated on a straight-line basis over the estimated economic lives of the following assets:

Buildings	60 years

Investment properties are derecognized when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period of derecognition.

The Group transfers properties to or from investment properties according to the actual use of the properties.

The Group transfers to or from investment properties when there is a change in use for these assets. Properties are transferred to or from investment properties when the properties meet, or cease to meet, the definition of investment property and there is evidence of the change in use.

(13) Leases

The Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset for a period of time, the Group assesses whether, throughout the period of use, has both of the following:

(A) The right to obtain substantially all of the economic benefits from use of the identified asset; and
(B) The right to direct the use of the identified asset.

For a contract that is, or contains, a lease, the Group accounts for each lease component within the contract as a lease separately from non-lease components of the contract. For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate standalone price of the non-lease components. The relative stand-alone price of lease and nonlease components shall be determined on the basis of the price the lessor, or a similar supplier, would charge the Group for that component, or a similar component, separately. If an observable stand-alone price is not readily available, the Group estimates the stand-alone price, maximising the use of observable information.

Group as a lessee

Except for leases that meet and elect short-term leases or leases of low-value assets, the Group recognizes right-of-use asset and lease liability for all leases which the Group is the lessee of those lease contracts.
At the commencement date, the Group measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the implicit interest rate in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses its incremental borrowing rate. At the commencement date, the lease payments included in the measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

(A) fixed payments (including in-substance fixed payments), less any lease incentives receivable;
(B) variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date
(C) amounts expected to be payable by the lessee under residual value guarantees
(D) the exercise price of a purchase option if the Group is reasonably certain to exercise that option; and
(E) payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

After the commencement date, the Group measures the lease liability on an amortised cost basis, which increases the carrying amount to reflect interest on the lease liability by using an effective interest method; and reduces the carrying amount to reflect the lease payments made.

At the commencement date, the Group measures the right-of-use asset at cost. The cost of the right-of-use asset comprises:

(A) the amount of the initial measurement of the lease liability;
(B) any lease payments made at or before the commencement date, less any lease incentives received;
(C) any initial direct costs incurred by the lessee; and
(D) an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

For subsequent measurement of the right-of-use asset, the Group measures the right-of-use asset at cost less any accumulated depreciation and any accumulated impairment losses. That is, the Group measures the right-of-use applying a cost model.
If the lease transfers ownership of the underlying asset to the Group by the end of the lease term or if the cost of the right-of-use asset reflects that the Group will exercise a purchase option, the Group depreciates the right-of-use asset from the commencement date to the end of the useful life of the underlying asset. Otherwise, the Group depreciates the right-of-use

asset from the commencement date to the earlier of the end of the useful life of the right-ofuse asset or the end of the lease term.

The Group applies IAS 36 “Impairment of Assets” to determine whether the right-of-use asset is impaired and to account for any impairment loss identified.
Except for those leases that the Group accounted for as short-term leases or leases of low-value assets, the Group presents right-of-use assets and lease liabilities in the balance sheet and separately presents lease-related interest expense and depreciation charge in the statements comprehensive income.

For short-term leases or leases of low-value assets, the Group elects to recognize the lease payments associated with those leases as an expense on either a straight-line basis over the lease term or another systematic basis.

Group as a lessor

At inception of a contract, the Group classifies each of its leases as either an operating lease or a finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset. At the commencement date, the Group recognizes assets held under a finance lease in its balance sheet and present them as a receivable at an amount equal to the net investment in the lease.

For a contract that contains lease components and non-lease components, the Group allocates the consideration in the contract applying IFRS 15.

The Group recognizes lease payments from operating leases as rental income on either a straight-line basis or another systematic basis. Variable lease payments for operating leases that do not depend on an index or a rate are recognized as rental income when incurred.

(14)Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is its fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets, not meeting the recognition criteria, are not capitalized and expenditure is reflected in profit or loss for the year in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each financial year. Changes in the expected useful life

or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for by changing the amortization period or method, as appropriate, and are treated as changes in accounting estimates.
Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in profit or loss when the asset is derecognized.

Computer software

The cost of computer software is amortized on a straight-line basis over the estimated useful life (5 years).

A summary of the policies applied to the Group’s intangible assets is as follows:

	Computer software
Useful lives	Finite
Amortization method used	Amortized on a straight- line basis over the estimated useful life
Internally generated or acquired	Acquired

(15) Impairment of non-financial assets

The Group assesses at the end of each reporting period whether there is any indication that an asset in the scope of IAS 36 Impairment of Assets may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset’s recoverable amount. An asset’s recoverable amount is the higher of an asset’s or cashgenerating unit’s (“CGU”) fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Group estimates the asset’s or cashgenerating unit’s recoverable amount. A previously recognized impairment loss is reversed only if there has been an increase in the estimated service potential of an asset which in turn increases the recoverable amount. However, the reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years.

An impairment loss of continuing operations or a reversal of such impairment loss is recognized in profit or loss.

(16) Revenue recognition

The Group's revenue arising from contracts with customers mainly includes sale of goods. The accounting policies for the Group's types of revenue are explained as follow:

Sale of goods

The Group sells of its products. Sales are recognized when control of the goods is transferred to the customer and the goods are delivered to the customers. The main product of the Group is electronic components and equipments and revenue is recognized based on the consideration stated in the contract or the order.

The Group provides its customer with a warranty with the purchase of the products. The warranty provides assurance that the product will operate as expected by the customers. And the warranty is accounted in accordance with IAS 37.

The credit period of the Group's sale of goods is from 30 to 120 days. For most of the contracts, when the Group transfers the goods to customers and has a right to an amount of consideration that is unconditional, these contracts are recognized as trade receivables. The Group usually collects the payments shortly after transfer of goods to customers; therefore, there is no significant financing component to the contract. For some of the contracts, the Group has recevied part of the consideration before transferring the goods to customers. Therefore, the Group has to undertake the obligation of transferring the goods afterwards, these contracts should be presented as contract liabilities.

(17) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective assets. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

(18) Post-employment benefits

All regular employees of the Company are entitled to pension plans that are managed by an independently administered pension fund committee. Fund assets are deposited under the committee's name in the specific bank account and hence, not associated with the Company and its domestic subsidiaries. Therefore, fund assets are not included in the Group's consolidated financial statements. Pension benefits for employees of the overseas subsidiaries and the branches are provided in accordance with the respective local regulations.

For the defined contribution plan, the Company and its domestic subsidiaries will make a monthly contribution of no less than 6% of the monthly wages of the employees subject to the plan. The Company recognizes expenses for the defined contribution plan in the period in which the contribution becomes due. Overseas subsidiaries and branches make contribution to the plan based on the requirements of local regulations and the contribution is expensed as incurred.

Post-employment benefit plan that is classified as a defined benefit plan uses the Projected Unit Credit Method to measure its obligations and costs based on actuarial assumptions. Re-measurements, comprising of the effect of the actuarial gains and losses, the effect of the asset ceiling (excluding net interest) and the return on plan assets, excluding net interest, are recognized as other comprehensive income with a corresponding debit or credit to retained earnings in the period in which they occur. Past service costs are recognized in profit or loss on the earlier of:

(a) the date of the plan amendment or curtailment, and
(b) the date that the Group recognizes restructuring-related costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset, both as determined at the start of the annual reporting period, taking account of any changes in the net defined benefit liability (asset) during the period as a result of contribution and benefit payment.

(19) Income taxes

Income tax expense (income) is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Current income tax relating to items recognized in other comprehensive income or directly in equity is recognized in other comprehensive income or equity and not in profit or loss.

The income tax for undistributed earnings is recognized as income tax expense in the subsequent year when the distribution proposal is approved by the Shareholders’ meeting.

Deferred tax

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

(A) Where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
(B) In respect of taxable temporary differences associated with investments in subsidiaries, and associates and interests in joint ventures, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

(A) Where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or
(B) In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will be reversed in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date. The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities. Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity. Deferred tax assets are reassessed at each reporting date and are recognized according

Deferred tax assets and liabilities are offset, if a legally enforceable right exists to set off current income tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.
Amendments to IAS 12 “International Tax Reform - Pillar Two Model Rules” introduce a temporary exception to the requirements in IAS 12 by stipulating that the Company should neither recognize nor disclose information about deferred tax assets and liabilities related to Pillar Two income taxes.

Interim period income tax expense is accrued using the tax rate that would be applicable to expected total annual earnings, that is, the estimated average annual effective income tax rate applied to the pre-tax income of the interim period. The estimated average annual effective income tax rate only includes current income tax.The recognition and measurement of deferred tax follows annual financial reporting requirements in accordance with IAS 12. The Group recognizes the effect of change in tax rate for deferred taxes in full if the new tax rate is enacted by the end of the interim reporting period, by charging to profit or loss, other comprehensive income, or directly to equity.

5. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the company's consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

(1) Judgement

In the process of applying the Group's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognized in the consolidated financial statements:

(a) Investment properties

Certain properties of the Group comprise a portion that is held to earn rentals or for capital appreciation and another portion that is owner-occupied. If these portions could be sold separately, the Group accounts for the portions separately as investment properties and property, plant and equipment.

(b) Operating lease commitment－Group as the lessor

The Group has entered into commercial property leases on its investment property portfolio. The Group has determined, based on an evaluation of the terms and conditions of the arrangements, that it retains all the significant risks and rewards of ownership of these properties and accounts for the contracts as operating leases.

(2) Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

(a) Accounts receivables - estimation of impairment loss

The Group estimates the impairment loss of accounts receivables at an amount equal to lifetime expected credit losses. The credit loss is the present value of the difference between the contractual cash flows that are due under the contract (carrying amount) and the cash flows that expects to receive (evaluate forward looking information). However, as the impact from the discounting of short-term receivables is not material, the credit loss is measured by the undiscounted cash flows. Where the actual future cash flows are lower than expected, a material impairment loss may arise. Please refer to Note 6 for more details.

(b) Inventory valuation

As inventories are valued at the lower of cost and net realization value, the Group must use judgment and estimation to determine the net realization value of inventory at the balance sheet date. Due to rapid technological change, the Group evaluates the amount of inventory at the balance sheet date due to normal wear and tear, obsolescence or no market value and writes the cost of inventory to net realized value. This inventory evaluation is mainly based on the estimated product demand for a specific period in the future and is subject to material changes.

(c) Pension benefits

The cost of post-employment benefit and the present value of the pension obligation under defined benefit pension plans are determined using actuarial valuations. An actuarial valuation involves making various assumptions. These include the determination of the discount rate and changes of the future salary etc.

(d) Income tax

Uncertainties exist with respect to the interpretation of complex tax regulations and the amount and timing of future taxable income. Given the wide range of international business relationships and the long-term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Group establishes provisions, based on reasonable estimates, for possible consequences of audits by the tax authorities of the respective counties in which it operates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective Group company's domicile.

Deferred tax assets are recognized for all carryforward of unused tax losses and unused tax credits and deductible temporary differences to the extent that it is probable that taxable profit will be available or there are sufficient taxable temporary differences against which the unused tax losses, unused tax credits or deductible temporary differences can be utilized. The amount of deferred tax assets determined to be recognized is based upon the likely timing and the level of future taxable profits and taxable temporary differences together with future tax planning strategies.

6. CONTENTS OF SIGNIFICANT ACCOUNTS

(1) Cash and cash equivalents

	September 30, 2024	December 31, 2023	September 30, 2023
Cash on hand and perty cash	$331	$330	$352
Checking accounts	67,843	36,804	38,415
Demand deposits	561,093	669,739	748,180
Time deposits	214,948	142,108	96,684
Total	$844,215	$848,981	$883,631

(2) Financial assets at fair value through other comprehensive income

	September 30, 2024	December 31, 2023	September 30, 2023
Equity instrument investments measured at fair value through other comprehensive income – noncurrent:			
Listed companies stocks	$266,156	$298,908	$323,782

The Group's financial assets at fair value through other comprehensive income were not pledged.

	Three months ended September 30		Nine months ended September 30	
	2024	2023	2024	2023
Dividend income related to investments still held at the balance sheet date	$11,774	$9,950	$11,774	$9,950

(3) Notes receivables

	September 30, 2024	December 31, 2023	September 30, 2023
Notes receivables arising from operating activities	$871	$414	$328
Less: loss allowance	(36)	-	-
Total	$835	$414	$328

The Group's notes receivables were not pledged.

The Group follows the requirement of IFRS 9 to assess the impairment. Please refer to Note 6(14) for more details on loss allowance and Note 12 for details on credit risk.

(4) Accounts receivable

	September 30, 2024	December 31, 2023	September 30, 2023
Accounts receivables	$863,986	$900,726	$937,769
Less: loss allowance	(12,763)	(17,874)	(14,674)
Total	$851,223	$882,852	$923,095

The Group's accounts receivables were not pledged.

Accounts receivable are generally on 30 to 120 days terms. The total carrying amount as of September 30, 2024, December 31, 2023, and September 30, 2023 were $863,986、$900,726 and $937,769 respectively. Please refer to Note 6(14) for more details on loss allowance of accounts receivables nine months ended September 30, 2024 and 2023. Please refer to Note 12 for more details on credit risk management.

(5) Inventories

(A) Net of inventories include:

	September 30, 2024	December 31, 2023	September 30, 2023
Merchandise inventories	$333,792	$257,597	$242,953

(B) Operating costs details recognized by the Group: ：

	Three months ended September 30		Nine months ended September 30	
	2024	2023	2024	2023
Cost of inventories sold	$608,429	$694,109	$1,819,365	$1,877,120
Loss(gain) on inventory valuation	2,492	(10,490)	757	(20,049)
Others	10	644	129	1,547
Total	$610,931	$684,263	$1,820,251	$1,858,618

The Group's recognition of inventory recovery benefits for the three months and nine months ended September 30, 2024 and 2023 was due to the gradual removal of substandard products and the recovery in selling prices of some products, which resulted in the disappearance of the factor that the net realizable value of the previous inventory was lower than the cost.

(C) The Group's inventories were not pledged.

(6) Prepayments

	September 30, 2024	December 31, 2023	September 30, 2023
Prepayments for merchandise purchase	$44,473	$1,720	$1,238
Others	6,557	8,030	7,243
Total	$51,030	$9,750	$8,481

(7) Property, plant and equipment

	September 30, 2024	December 31, 2023	September 30, 2023

“Significent components” of buildings primarily comprised the main buildings which are depreciated based on their useful economic life of 60 years.

Please refer to Note 8 for more details on property, plant and equipment pledged as collaterals.

(8) Investment property

The Group’s investment properties include owned investment properties. The Group has entered into commercial property leases on its owned investment properties with terms of between 7 and 8 years. These leases include a clause to enable upward revision of the rental charge on an annual basis according to prevailing market conditions.

Total	$540	$462	$1,464	$1,386

The Group’s investment property was not pledged during the peried.

Investment properties held by the Group are not measured at fair value but for which the fair value is disclosed. The fair value measurements of the investment properties are categorized within Level 3.
Investment properties held by the Group are mainly located at Zhongshan area and Nangang area in Taipei city. The fair value of investment properties was NT$151,445 thousand upon the valuation performed by an independent appraiser in the first quarter of 2013. The valuation methods used are Comparative approach and Income capilization rate approach and Coparative approach and Land development analysis approach. By considering the nature of the subject property, condition of use, development scope and the credibility of the baseline data, the price per sqare feet is estimated using the wieghted amount calculated by one of the two methods listed per below:

(a) 60% Comparative approach + 40% Income capilization rate approach
(b) 40% Comparative approach + 60% Land development analysis approach.

Calcualtions used within the valuation methods:

(A) The main evaluation parameter used for the comparative approach is calculated by investegating and estimating the cases nearby the subject property.
(B) The main parameter of the income capitalization rate approach is to calculate the price per square feet based on the annual lease amount according to the market survey, and then calculate the price per square feet based on the income capitalization rate of 1.85%.
(C) As for the land development analysis approach, it is to evaluate the reasonable acquisition price of the development land.

Considering that the capitalization rate of income from the domestic real estate market in the most recent year is comparable to the valuation date metioned above, the Group therefore refers to the valuation results and the above-mentioned recent real estate market as the fair value of the investment real estate on the cut-off date of each financial report.

The Group conducted the estimation of of the investment property on September 30, 2024, December 31, 2023, and September 30, 2023, respectively. The estimation results were obtained by using the actual transaction price of each year and the market transaction price of similar properties in the vicinity of the relevant assets (including the Real Price Enquiry Service Network of Real Estate Transactions of the Ministry of the Interior and the Real Price Inquiry Service Website of Housing Arbitration Industry).The estimation was equivalent to the valuation results metioned above.

(9) Intangible assets

	Computer Software

(10) Short-term borrowings

	September 30, 2024	December 31, 2023	September 30, 2023
Unsecured bank loans	$398,000	$446,000	$453,000
Secured bank loans	174,000	144,000	144,000
Total	$572,000	$590,000	$597,000

The Group's annual interest rates for unsecured bank loans are 1.900%~2.080%, 1.800%~1.982%, and 1.800%~2.000%, as of September 30, 2024, December 31, 2023, and September 30, 2023, respectively.

The Group's annual interest rate for secured bank loans are 1.835%, 1.710%, and 1.710%, as of September 30, 2024, December 31, 2023, and September 30, 2023, respectively.

The Group's unused short-term loans of credits amounted to $1,099,300, $1,111,410 and $1,107,540, as of September 30, 2024, December 31, 2023, and September 30, 2023, respectively.

Please refer to Note 8 for more details on assets pledged as collaterals.

(11) Post-employment benefits

Defined contribution plan

Expenses under the defined contribution plan for the the three months ended September 30, 2024 and 2023 were $1,083 and $1,079 respectively; expenses under the defined contribution plan for the the nine months ended September 30, 2024 and 2023 were $3,348 and $3,232 respectively.

Defined benefits plan

Expenses under the defined benefits plan three months ended September 30, 2024 and 2023 were $15 and $15 respectively; expenses under the defined benefits plan nine months ended September 30, 2024 and 2023 were $45 and $45 respectively.

(12) Equities

(A) Common stock

As of September 30, 2024, December 31, 2023, and September 30, 2023, the Company's authorized capital was $800,000 each share at a par value of NT$10. As of September 30, 2024, December 31, 2023, and September 30, 2023, The Company's paid-in capital was $651,298 divided into 65,130 thousand shares. Each share represents a voting right and a right to receive dividends.

(B) Capital surplus

	September 30, 2024	December 31, 2023	September 30, 2023
Additional paid-in capital	$45,647	$45,647	$45,647
Gain on disposal of assets	834	834	834
Employee stock option	5,581	5,581	5,581
Total	$52,062	$52,062	$52,062

According to the Company Act, the capital surplus shall not be used except for offsetting the deficit of the company. When a company has no accumulated deficit, it may distribute the capital surplus related to the income derived from the issuance of new shares at a premium or income from endowments received by the company. The distribution could be made in cash or in the form of dividend shares to its shareholders in proportion to the number of shares being held by each of them.

(C) Retained earnings and dividend policies

According to the Company's Articles of Incorporation, current year's earnings, if any, shall be distributed in the following order:

a. Payment of all taxes and dues;
b. Offset prior years' operation losses;
c. Set aside 10% of the remaining amount after deducting items (a) and (b) as legal reserve;
d. Set aside or reverse special reserve in accordance with law and regulations; and
e. The distribution of the remaining portion, if any, will be recommended by the Board of Directors (contribution of at least 30% should be made for the Unappropriated retained earnings portions) and resolved in the shareholders' meeting. For cash dividends issued, the amount should be at least 20% but not above 100% of the shareholders' bonus, after deducting the cash divdend the remaining amount should be issued as stock divdends.

According to the Company Act, the Company needs to set aside amount to legal reserve unless where such legal reserve amounts to the total paid-in capital. The legal reserve can be used to offset the deficit of the Company. When the Company has no acculuated deficit, it may distribute the portion of legal serve which exceeds 25% of the paid-in capital by issuing new shares or by cash in proportion to the number of shares being held by each of the shareholders.

According to existing regulations, when the Company distributing distributable earnings, it shall set aside to special reserve, from the profit/loss of the current period and the undistributed earnings from the previous period, an amount equal to "other net deductions from shareholders' equity for the current fiscal year, provided that if the company has already set aside special reserve in the first-time adoption of the IFRS, it shall set aside supplemental special reserve based on the difference between the amount already set aside and other net deductions from shareholders' equity. For any subsequent reversal of other net deductions from shareholders' equity, the amount reversed may be distributed from the special reserve.

On March 31, 2021, the FSC issued Order No. Financial-Supervisory-Securities-Corporate-1090150022, which sets out the following provisions for compliance:
On a public company's first-time adoption of the IFRS, for any unrealized revaluation gains and cumulative translation adjustments (gains) recorded to shareholders' equity that the company elects to transfer to retained earnings by application of the exemption under IFRS 1, the company shall set aside special reserve. For any subsequent use, disposal or reclassification of related assets, the special reserve in the amount equal to the reversal may be released for earnings distribution. The amount for Special reserve appropriated as of September 30, 2024, December 31, 2023, and September 30, 2023 are NT$3,340 thousand.

Details of the 2023 and 2022 earnings distribution and dividends per share as resolved by the shareholders' meeting on June 21, 2024 and June 19, 2023, respectively, are as follows:

	Appropriation of earnings		Dividend per share (NT$)	
	2023	2022	2023	2022
Legal reserve	$10,104	$21,050		
Common stock-cash dividend	78,156	81,412	$1.2	$1.3
Common stock-stock dividend	-	25,050	-	0.4
Total	$88,260	$127,512		

Please refer to Note 6(16) for details on employees' compensation and remuneration to directors and supervisors.

(13) Operating revenue

	Three months ended September 30		Nine months ended September 30	
	2024	2023	2024	2023
Revenue from customer contracts				
Sales of goods	$674,054	$770,637	$2,012,820	$2,083,702
Service revenues	39	977	377	4,605
Total	$674,093	$771,614	$2,013,197	$2,088,307

Analysis of revenue from contracts with customers for the three months and nine months ended September 30, 2024 and 2023 are as follows:

(A) Disaggregation of revenue

Three months ended September 30, 2024

	Taiwan Segment.	Republic of China and Southeast Asia Segment.	Group Total
Sales of goods	$475,230	$198,824	$674,054
Service revenues	39	-	39
Total	$475,269	$198,824	$674,093
Timing of revenue recognition:			
At a point in time	$475,269	$198,824	$674,093

Three months ended September 30, 2023

	Taiwan Segment.	Republic of China and Southeast Asia Segment.	Group Total

(15) Leases

(A) Group as a lessee

The Group has entered into commercial lease on land, buildings and transportation equipment. These leases have terms between 2 and 4 years.

The effect of leases on the Group's consolidated financial position, financial performance and cash flows are as follow:

A. Amounts recognized in the balance sheet

(a) Right-of-use assets

The carrying amount of right-of-use assets

	September 30, 2024	December 31, 2023	September 30, 2023
Buildings	$11,069	$15,980	$18,713
Transportation equipment	2,529	3,728	4,127
Total	$13,598	$19,708	$22,840

During the periods ended September 30, 2024 and 2023, the Group's additions to right-of-use assets of the group amounting to NT$1,896 thousand and NT$11,173 thousand, respectively.

(b) Lease liabilities

	September 30, 2024	December 31, 2023	September 30, 2023
Lease liabilities	$13,833	$21,033	$24,104
Current	$11,231	$10,879	$11,121
Non-current	$2,602	$10,154	$12,983

Please refer to Note 6 (17)(D) for the interest on lease liabilities recognized during the nine months ended September 30, 2024 and 2023 and refer to Note 12(5) Liquidity Risk Management for the maturity analysis for lease liabilities.

B. Amounts recognized in the statement of profit or loss

Depreciation charge for right-of-use assets

	Three months ended September 30		Nine months ended September 30	
	2024	2023	2024	2023
Buildings	$2,343	$2,545	$7,137	$7,744
Transportation equipment	399	400	1,198	666
Total	$2,742	$2,945	$8,335	$8,410

C. Income and costs relating to leasing activities

	Three months ended September 30		Nine months ended September 30	
	2024	2023	2024	2023
The expenses relating to short-term leases	$1,949	$1,957	$5,469	$5,837
Gain on lease modification	-	(18)	-	(18)
Total	$1,949	$1,939	$5,469	$5,819

D. Cash outflow relating to leasing activities

During the nine months ended September 30, 2024 and 2023, the Group's total cash outflows for leases amounting to $15,446 and $14,975 respectively.

E. Other information relating to leasing activities

(a) Variable lease payments

Some of the Group's printer rental agreements contain variable payment terms that are linked to certain percentages of the usage amount generated from the leased printer, which is very common in the industry of the Group.

As such variable lease payments do not meet the definition of lease payments, those payments are not included in the measurement of the assets and liabilities.

(b) Extension and termination options

Some of the Group's property rental agreement contain extension and termination options. In determining the lease terms, the non-cancellable period for which the Group has the right to use an underlying asset, together with both periods covered by an option to extend the lease if the Group is reasonably certain to exercise that option and periods covered by an option to terminate the lease if the Group is reasonably certain not to exercise that option. These options are used to maximize operational flexibility in terms of managing contracts. The majority of extension and termination options held are exercisable only by the Group.

After the commencement date, the Group reassesses the lease term upon the occurrence of a significant event or a significant change in circumstances that is within the control of the lessee and affects whether the Group is reasonably certain to exercise an option not previously included in its determination of the lease term, or not to exercise an option previously included in its determination of the lease term.

(B) Group as lessor

Please refer to Note 6(8) for details on the Group's owned investment properties. Leases of owned investment properties are classified as operating leases as they do not transfer substantially all the risks and rewards incidental to ownership of underlying assets.

	Three months ended September 30		Nine months ended September 30	
	2024	2023	2024	2023
Lease income for operating leases				
Income realting to fixed lease payments and variable lease payments that depend on an index or a rate	$579	$499	$1,577	$1,497

The Company's income tax returns through 2022 have been assessed and approved by the Tax Authority.

(20) Earnings per share

Basic earnings per share amounts are calculated by dividing net profit attributable to ordinary equity holders of the parent entity by the weighted average number of ordinary shares outstanding during the year.

Diluted earnings per share amounts are calculated by dividing the net profit attributable to ordinary equity holders of the parent entity (after adjusting for interest on the convertible preference shares) by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on conversion of all the dilutive potential ordinary shares into ordinary shares.

	Three months ended September 30		Nine months ended September 30	
	2024	2023	2024	2023
(A) Basic earnings per share				
Profit attributable to the parent company (in thousand NT$)	$8,971	$64,806	$71,300	$117,331
Weighted average number of ordinary shares outstanding for basic earnings per share (in thousands)	65,130	65,130	65,130	65,130
Basic earnings per share (NT$)	$0.13	$0.99	$1.09	$1.80

	Three months ended September 30		Nine months ended September 30	
	2024	2023	2024	2023
(B) Diluted earnings per share				
Profit attributable to the parent company after dilution (in thousand NT$)	$8,971	$64,806	$71,300	$117,331
Weighted average number of ordinary shares outstanding for basic earnings per share (in thousands)	65,130	65,130	65,130	65,130
Effect of dilution:				
Employee remuneration－stock (in thousands)	12	86	146	250
Weighted average number of ordinary shares outstanding after dilution (in thousands)	65,142	65,216	65,276	65,380
Diluted earnings per share (NT$)	$0.13	$0.99	$1.09	$1.79

There have been no other transactions involving ordinary shares or potential ordinary shares between the reporting date and the date of completion of the financial statements.

7. RELATED PARTY TRANSACTIONS

Information of the related parties that had transactions with the Group during the financial reporting period is as follows:

Name and eelationship of the related parties

Name of the related parties	Nature of relationship of the related parties
Tailyn Technologies, Inc.	Associate
Taipei Rosyclouds Foundation For Education	Substantive related party

Significant related party transactions

(1) Key management personnel compensation

	Three months ended September 30		Nine months ended September 30	
	2024	2023	2024	2023
Short-term employee benefits	$4,797	$4,088	$16,045	$15,035
Post-employment benefits	52	52	155	155
Total	$4,849	$4,140	$16,200	$15,190

(2) Sales revenue

	Three months ended September 30		Nine months ended September 30	
	2024	2023	2024	2023
Associates				
Tailyn Technologies, Inc.	$67	$77	$252	$228

The sales price to the above related parties was determined through mutual agreement based on the market conditions. The collection periods for sales to related parties and to third parties were all month-end 30~120 days. The outstanding balances as of September 30, 2024 and 2023 were unsecured, non-interest bearing and to be settled in cash. The receivables from the related parties were not guaranteed.

(3) Accounts receivable

	September 30, 2024	December 31, 2023	September 30, 2023
Associates			
Tailyn Technologies, Inc.	$91	$123	$153

(4) Other payables

	September 30, 2024	December 31, 2023	September 30, 2023
Associates			
Tailyn Technologies, Inc.	$25	$13	$13

(5) Lease - related parties

Lease payments

	Three months ended September 30		Nine months ended September 30	
	2024	2023	2024	2023
Associates				
Tailyn Technologies, Inc.	$90	$90	$272	$272

The rental prices and collection terms to the above related parties are not much different from third parties. The mutual agreement of rental prices is determined by local market conditions, and is based on the location, floors and scopes of the lease.

(6) Donation

	Three months ended September 30		Nine months ended September 30	
	2024	2023	2024	2023
Substantive related party				
Taipei Rosyclouds Foundation For Education	$-	$300	$-	$300

8. PLEDGED ASSETS

The Group's assets pledged as collateral are as follows:

	Carrying amount			
Items	September 30, 2024	December 31, 2023	September 30, 2023	Secured liabilities
Property, plant and equipment - land	$89,074	$89,074	$89,074	Short-term bank loan
Property, plant and equipment - buildings	12,871	13,141	13,230	Short-term bank loan
Total	$101,945	$102,215	$102,304	

9. SIGNIFICANT CONTINGENCIES AND UNRECOGNIZED CONTRACT COMMITMENTS

(1) The guarantee notes issued by the Group as of September 30, 2024:

Client	Nature	Amount
Flexium Interconnect Inc.	Performance guarantee	$14,465

(2) The Group has signed an agency contract with Company S to sell Company S's products, and the Group shall pay the agency deposit to Company S as a performance guarantee according to the contract. As of September 30, 2024, the Group has provided US$1.5 million as a performance bond, which amounted to approximately $47,475 and is accounted under Refundable deposits paid.

10. SIGNIFICANT DISASTER LOSS

None.

11. SIGNIFICANT SUBSEQUENT EVENTS

None.

12. OTHERS

(1) Categories of financial instruments

Financial assets

	September 30, 2024	December 31, 2023	September 30, 2023
Financial assets at fair value through other comprehensive income	$266,156	$298,908	$323,782
Financial assets measured at amortized cost (Note)	1,757,132	1,787,183	1,866,109
Total	$2,023,288	$2,086,091	$2,189,891

Financial liabilities

	September 30, 2024	December 31, 2023	September 30, 2023
Financial liabilities at amortized cost:			
Short-term borrowings	$572,000	$590,000	$597,000
Notes payable and accounts payable	281,508	265,253	261,530

Guarantee deposits	517	3,309	3,309
Total	$956,438	$965,334	$976,888

Note: Including cash and cash equivalents (excluding cash on hand), notes receivable, accounts receivable, other receivables and refundable deposits.

(2) Financial risk management objectives and policies

The Group's principal financial risk management objective is to manage the market risk, credit risk and liquidity risk related to its operating activates. The Group identifies measures and manages the aforementioned risks based on the Group's policy and risk appetite.

The Group has established appropriate policies, procedures and internal controls for financial risk management. Before entering into significant transactions, due approval process by the Board of Directors must be carried out based on related protocols and internal control procedures. The Group complies with its financial risk management policies at all times.

(3) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of the changes in market prices. Market prices comprise currency risk, interest rate risk and other price risk (such as equity risk).

In practice, it is rarely the case that a single risk variable will change independently from other risk variable, there is usually interdependencies between risk variables. However, the sensitivity analysis disclosed below does not take into account the interdependencies between risk variables.

Foreign currency risk

The Group's exposure to the risk of changes in foreign exchange rates relates primarily to the Group's operating activities (when revenue or expense are denominated in a different currency from the Group's functional currency) and the Group's net investments in foreign subsidiaries.

The Group has certain foreign currency receivables to be denominated in the same foreign currency with certain foreign currency payables, therefore natural hedge is received. The Group also uses forward contracts to hedge the foreign currency risk on certain items denominated in foreign currencies. Hedge accounting is not applied as they did not qualify for hedge accounting criteria. Furthermore, as net investments in foreign subsidiaries are for strategic purposes, they are not hedged by the Group.

The foreign currency sensitivity analysis of the possible change in foreign exchange rates on the Group's profit is performed on significant monetary items denominated in foreign currencies as at the end of the reporting period. The Group's foreign currency risk is mainly related to the volatility in the exchange rates for foreign currency A and foreign currency B. The information of the sensitivity analysis is as follows:

When NTD strengthens against USD by 1%, the profit for the nine months ended September 30, 2024 and 2023 would decrease by $9,978 and $11,328 respectively.

Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's debt instrument investments at variable interest rates, bank borrowings with fixed interest rates and variable interest rates.

The Group manages its interest rate risk by having a balanced portfolio of fixed and variable loans and borrowings and entering into interest rate swaps. Hedge accounting does not apply to these swaps as they do not qualify for it.

The interest rate sensitivity analysis is performed on items exposed to interest rate risk as at the end of the reporting period, including investments and borrowings with variable interest rates and interest rate swaps. At the reporting date, a change of 10 basis points of interest rate in a reporting period could cause the profit for the nine months ended September 30, 2024 and 2023 to decrease by $314 and $485 respectively.

Equity price risk

The fair value of the Group's listed and unlisted equity securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. The Group's listed and unlisted equity securities are classified under financial assets measured at fair value through other comprehensive income. The Group manages the equity price risk through diversification and placing limits on individual and total equity instruments. Reports on the equity portfolio are submitted to the Group's senior management on a regular basis. The Group's Board of Directors reviews and approves all equity investment decisions.

As of September 30,2024 and 2023, a change of 5% in the price of the listed companies stocks classified as equity instruments investments measured at fair value through other comprehensive income could have an impact of $13,308 and $16,189 on the equity attributable to the Group for the nine months ended September 30, 2024 and 2023, respectively.

Please refer to Note 12(8) for sensitivity analysis information of other equity instruments or derivatives that are linked to such equity instruments whose fair value measurement is categorized under Level 3.

(4) Credit risk management

Credit risk is the risk that a counterparty will not meet its obligations under a contract, leading to a financial loss. The Group is exposed to credit risk from operating activities (primarily for account and notes receivables) and from its financing activities, including bank deposits and other financial instruments.

Credit risk is managed by each business unit subject to the Group's established policy, procedures and control relating to credit risk management. Credit limits are established for all counter parties based on their financial position, rating from credit rating agencies, historical experience, prevailing economic condition and the Group's internal rating criteria etc. Certain counter parties' credit risk will also be managed by taking credit enhancing procedures, such as requesting for prepayment or insurance.

As of September 30, 2024, December 31, 2023, and September 30, 2023, the credit concentration risk of accounts receivable is insignificant.

Credit risk from balances with banks, fixed income securities and other financial instruments is managed by the Group's treasury in accordance with the Group's policy. The Group only transacts with counterparties approved by the internal control procedures, which are banks and financial institutions, companies and government entities with good credit rating. Consequently, there is no significant credit risk for these counter parties.

In addition, the Group also writes off financial assets when it evaluates that it cannot reasonably be expected to recover financial assets (e.g. significant financial difficulties of the issuer or debtor, or bankruptcy).

(5) Liquidity risk management

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of cash and cash equivalents, highly liquid equity investments, bank borrowings, convertible bonds and finance leases. The table below summarizes the maturity profile of the Group's financial liabilities based on the contractual undiscounted payments and contractual maturity. The payment amount includes the contractual interest. The undiscounted payment relating to borrowings with variable interest rates is extrapolated based on the estimated interest rate yield curve as of the end of the reporting period.

Non-derivative financial liabilities

	Less than 1 year	2 to 3 years	4 to 5 years	>5 years	Total
As of September 30, 2024					
Short-term borrowings (estimated interests to be paid included)	$572,237	$-	$-	$-	$572,237

(6) Reconciliation of liabilities arising from financing activities

Reconciliation of liabilities for the nine months ended September 30, 2024:

	Short-term borrowings	Guarantee deposits	Leases liabilities	Total liabilities from financing activities
At Jannary 1, 2024	$590,000	$3,309	$21,033	$614,342
Cash flows	(18,000)	(2,792)	(9,977)	(30,769)
Non-cash changes	-	-	2,777	2,777
At September 30, 2024	$572,000	$517	$13,833	$586,350

Reconciliation of liabilities for the nine months ended September 30, 2023:

	Short-term borrowings	Guarantee deposits	Leases liabilities	Total liabilities from financing activities
At Jannary 1, 2023	$903,000	$3,314	$21,692	$928,006
Cash flows	(306,000)	-	(9,156)	(315,156)
Non-cash changes	-	(5)	11,568	11,563
At September 30, 2023	$597,000	$3,309	$24,104	$624,413

(7) Fair values of financial instruments

(A) The methods and assumptions applied in determining the fair value of financial instruments:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following methods and assumptions were used by the Group to measure or disclose the fair values of financial assets and financial liabilities:

A. The carrying amount of cash and cash equivalents, trade receivables, accounts payable and other current liabilities approximate their fair value due to their short maturities.
B. For financial assets and liabilities traded in an active market with standard terms and conditions, their fair value is determined based on market quotation price (including listed equity securities, beneficiary certificates, bonds and futures etc.) at the reporting date.

C. Fair value of equity instruments without market quotations (including private placement of listed equity securities, unquoted public company and private company equity securities) are estimated using the market method valuation techniques based on parameters such as prices based on market transactions of equity instruments of identical or comparable entities and other relevant information (for example, inputs such as discount for lack of marketability, P/E ratio of similar entities and Price-Book ratio of similar entities).

D. The fair value of other financial assets and financial liabilities is determined on the basis of discounted cash flow analysis, and their interest rates and discount rates are mainly based on information related to similar instruments, yield curves applicable over the life of the period, etc.

(B) Fair value of financial instruments measured at amortized cost

The Group's carrying value of financial instruments measured at amortized cost approaches to the fair value of financial instruments measured at amortized cost approaches.

(C) Fair value measurement hierarchy for financial instruments
Please refer to Note 12(8) for fair value measurement hierarchy for financial instruments of the Group.

(8) Fair value measurement hierarchy

(A) Fair value measurement hierarchy
All asset and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole. Level 1, 2 and 3 inputs are described as follows:

Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities that the entity can access at the measurement date
Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
Level 3 – Unobservable inputs for the asset or liability

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization at the end of each reporting period.

(B) Fair value measurement hierarchy of the Group's assets and liabilities

The Group does not have assets that are measured at fair value on a non-recurring basis. Fair value measurement hierarchy of the Group's assets and liabilities measured at fair value on a recurring basis is as follows:

At September 30, 2024

	Level 1	Level 2	Level 3	Total
Financial assets:				
Measured at fair value through other comprehensive income				
Equity instruments designated at fair value through other comprehensive income	$266,156	$-	$-	$266,156

At December 31, 2023

	Level 1	Level 2	Level 3	Total
Financial assets:				
Measured at fair value through other comprehensive income				
Equity instruments designated at fair value through other comprehensive income	$298,908	$-	$-	$298,908

At September 30, 2023

	Level 1	Level 2	Level 3	Total
Financial assets:				
Measured at fair value through other comprehensive income				
Equity instruments designated at fair value through other comprehensive income	$323,782	$-	$-	$323,782

Transfers between Level 1 and Level 2 during the period

During the nine months periods ended September 30, 2024 and 2023, there were no transfers between Level 1 and Level 2 fair value measurements.

Fair value measurements in Level 3 of the fair value hierarchy for movements

As of September 30, 2024 and 2023, there were no financial assets that are measured at fair value within Level 3. Therefore the valuation process used for fair value measurements categorized within Level 3 of the fair value hierarchy isn’t needed. Valuation process used for fair value measurements categorized within Level 3 of the fair value hierarchy

Evaluation process for Level 3 fair value measurement

As of September 30, 2024 and 2023, there were no financial assets that are measured at fair value within Level 3. Therefore the valuation process used for fair value measurements categorized within Level 3 of the fair value hierarchy isn’t needed.

(C) Fair value measurement hierarchy of the Group’s assets and liabilities not measured at fair value but for which the fair value is disclosed

As of September 30, 2024:

	Level 1	Level 2	Level 3	Total
Investment properties (please refer to Note 6)	$-	$-	$151,445	$151,445

As of December 31, 2023:

	Level 1	Level 2	Level 3	Total
Investment properties (please refer to Note 6)	$-	$-	$151,445	$151,445

As of September 30, 2023:

	Level 1	Level 2	Level 3	Total
Investment properties (please refer to Note 6)	$-	$-	$151,445	$151,445

(9) Significant financial assets and liabilities denominated in foreign currencies

The significant financial assets and liabilities denominated in foreign currencies were as follow:

Amounts expressed in thousand

	September 30, 2024		
	Foreign currencies	Foreign exchange rate	NTD
Financial assets			
Monetary items:			
USD	$39,949	31.650	$1,264,400
Financial liabilities			
Monetary items:			
USD	$8,423	31.650	$266,590

	December 31, 2023		
	Foreign currencies	Foreign exchange rate	NTD
Financial assets			
Monetary items:			
USD	$41,358	30.705	$1,269,891
Financial liabilities			
Monetary items:			
USD	$8,204	30.705	$251,905

	September 30, 2023		
	Foreign currencies	Foreign exchange rate	NTD
Financial assets			
Monetary items:			
USD	$43,527	32.270	$1,404,629
Financial liabilities			
Monetary items:			
USD	$8,423	32.270	$271,812

Since there were variaties of functional currencies within each entities of the Group, the Group is unable to disclose foreign exchange gain or loss information of monetary financial assets and liabilities in each foreign currency. The Group's net foreign currency exchange (loss)gain were $(14,947) and $33,699, $29,643 and $47,826 for the three months and nine months ended September 30, 2024 and 2023, respectively.

(10) Capital management

The primary objective of the Group’s capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholders’ value. To maintain or adjust the capital structure, the Group may adjust dividend payment to shareholders, return capital to shareholders or issue new shares.

13. SUPPLEMENTARY DISCLOSURE

(1) Significant transactions information

(A) Financing provided to others: None.
(B) Endorsement/Guarantees provided to others: Please refer to Attachment 2.
(C) Securities on held at the end of the period：Please refer to Attachment 3.
(D) Individual securities acquired or disposed of with accumulated amount exceeding the lower of NT$300 million or 20 percent of the capital stock: None.
(E) Acquisition of individual property with amount exceeding NT$300 million or 20 percent of the capital stcok: None.
(F) Disposition of property for amount exceeding NT$300 million or 20 percent of the capital stock: None.
(G) Related parties transactions for purchases and sales amount exceeding NT$100 million or 20 percent of the capital stock: Please refer to Attachment 4.
(H) Receivables from related parties with amount exceeding NT$100 million or20 percent of the capital stock: None.
(I) Derivatives transactions: None.
(J) Others: The business relationships and important transactions between the parent company and the subsidiaries, and amongsubsidiaries, along with their respective amounts are detailed in Attachment 5.

(2) Information on investees

(A) Information about the investee company that direct or indirect has significant influence or control over the investee company: Please refer to Attachment 6 and 7.

(B) Information of significant transaction within the investee company of which that has significant influence or control over the investee company, directly or indirectly：

A. Financing provided to others: Please refer to Attachment 1.
B. Endorsement/Guarantees provided to others: None.

C. Securities held at the end of the period: None

D. Individual securities acquired or disposed of with accumulated amount exceeding the lower of NT$300 million or 20 percent of the capital stock: None.

E. Acquisition of individual property with amount exceeding NT$300 million or 20 percent of the capital stock: None.

F. Disposal of individual property with amount exceeding NT$300 million or 20 percent of the capital stock: None.

G. Related party transaction for purchases and sales amounts exceeding the lower of NT$100 million or 20 percent of the capital stock: Please refer to Attachment 4.

H. Receivables from related parties with amount exceeding NT$100 million or 20 percent ofcapital stock: None.

I. Derivatives transactions: None.

(3) Information on investments in Mainland China

(A) Investee company name, main businesses and products, total amount of capital, investment method, accumulated inflow and outflow of investments from Taiwan, percentage of ownership, investment profit and loss, carry amount of investment at the end of the period, cumulated inward remittance of earnings and limits on investment in Mainland China: Please refer to Attachment 7.

(B) Directly or indirectly significant transactions with investee in Mainland China through third regions:

A. The amount and percentage of goods purchased and the closing balance and percentage of the related payables nine months ended September 30, 2024：Please refer to attachment 5.

B. Property transactions and the amount of profit and loss arising from the transactions:：None.

C. The closing balance and purpose of the guarntee of payment instrument by endorsement or collateral provided：None.

D. The highest balance, closing balance, interest rate range and total interest of the period for the capital and finance：Please refer to attachment 1.

E. Other transactions that have a significant impact on the profit or loss or financial position of the current period, such as the provision or receipt of services etc.：None.

(4) Major shareholders information

Information on shareholders holding 5% or more of the Company’s equity: Please refer to attachment 8.

14. OPERATING SEGMENT INFORMATION

For management purposes, the Group is organized into business units based on their products and services and has two reportable operating segments as follows:

(1) Taiwan Segment：The segment is mainly responsible for the agency sales of electronic components and process eqiupments in Taiwan.

(2) China and South East Asia segment：The segment is mainly responsible for the distribution of electronic components in Eastern and Southern China (including Hongkong) and Vietnam.

The aforementioned Chinese and Southeast Asia segment are the aggregation of the operating departments of the subsidiary in Eastern and Southern China and Vietnam. Since the Eastern and Southern China operating departments both focus on providing agency sales of the same electronic components and have similar economic characteristics, they have been considerated into into a single operating department along with the Vietnam operateing department.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss before tax. There was no material difference between the accounting policies of the operating segment and those described in Note 4. However, income taxes are managed at a group level and are not allocated to operating segments.

Transfer prices between operating segments is based on regular transactions similar to those with external third parties.

Three months ended September 30, 2024

	Taiwan Segment	China and Southeast Asia segment	Subtotal	Adjustment and elimination (Note)	Consolidated
External customer	$475,269	$198,824	$674,093	$-	$674,093

													Name	Value		
1	ShangHai Howteh International Trading Inc.	KunShan Howteh International Trading Inc.	Other receivables	Yes	$31,650 (USD1,000)	$31,650 (USD1,000)	$7,766	0.00%	1	$0	Business dealings	$-	-	-	$68,090 (Note 10)	$102,135 (Note 10)
1	ShangHai Howteh International Trading Inc.	ShenZhen Howteh Technology Co., Ltd.	Other receivables	Yes	18,092 (RMB4,000)	18,092 (RMB4,000)	-	4.35%	2	-	Short-term financing	-	-	-	68,090 (Note 10)	102,135 (Note 10)
2	ShenZhen Howteh Technology Co., Ltd.	ShangHai Howteh International Trading Inc.	Other receivables	Yes	18,092 (RMB4,000)	18,092 (RMB4,000)	-	3.35%	2	-	Short-term financing	-	-	-	33,452 (Note 11)	50,178 (Note 11)

Note 1: The description of the number column is as follows:

(1) Issuer fill in 0.

(2) Investee companies are numbered sequentially, beginning with the Arabic numeral 1.

Note 2: Accounts of receivables related enterprise payments, receivables related party payments, shareholder transactions, advance payments, temporary payments... and other subjects, if they are in the nature of capital loans, must be filled in this form.

Note 3: The highest balance of funds lent to others in the current year.

Note 4: The nature of the loan should be filled in as a business transaction or a need for short-term financing.

(1) Business transaction fill in 1.

(2) Short-term financing fill in 2.

Note 5: If the nature of the loan is a business transaction, the business transaction amount should be filled in, which refers to the business transaction amount of the company and the loan target who lent the funds in the latest year.

Note 6: If the nature of the capital loan is necessary for short-term financing funds, the reason for the necessary loan and the purpose of the funds to be borrowed should be specified, such as: repayment of loans, purchase of equipment, business turnover, etc.

Note 7: The maximum loan limit set by the Company shall not exceed 40% of the net value of the Company, and the maximum loan limit shall not exceed 20% of the net value of the Company for a single object.

Note 8: The amounts of funds to be loaned to others w hich have been approved by the Board of Directors of a public company in accordance with Article 14, Item 1 of the “Regulations Governing Loaning of Funds and Making of Endorscmcnls/ Guarantccs by Public Companies” should be included in its published balance of loans to others at the end of the reporting period to reveal the risk of loaning the public company bears, even though they have not yet been appropriated. However, this balance should exclude the loans repaid when repayments are done subsequently to reflect the risk adjustment. Tn addition, if the Board of Directors of a public company has authorized the Chairman to loan funds in instalments or in revolving within certain lines and within one year in accordance with Article 14, Item 2 of the “Regulations Governing Loaning of Funds and Making of Endorscmcnls/ Guarantccs by Public Companies”, the published balance of loans to others at the end of the reporting period should also include these lines of loaning approved by the Board of Directors, and these lines of loaning should not be excluded from this balance even though the loans are repaid subsequently, for taking into consideration that they could be loaned again thereafter.

Note 9: Counter-party:

According to Article 15 of the Company Law, the company's funds shall not be lent to shareholders or any other person except in the following circumstances:

(1) Intercompany business dealers.

(2) There is a need for short-term financing between companies. The amount of financing shall not exceed 40% of the net value of enterprise.

For the purposes of the preceding paragraph, short-term term refers to one year. However, if the company's business cycle is longer than one year, the business cycle shall prevail.

(3) The financing amount referred to in the preceding paragraph is the cumulative balance of the Company's short-term financing funds.

(4) The Company directly and indirectly holds 100% of the voting shares of foreign companies engaged in capital loans, which are not subject to the restrictions of the preceding paragraph.

Note 10: The total limit of capital loans set by ShangHai HOWTEH International Trading Inc. shall not exceed 60% of the net value of the company, and the maximum loan limit for a single object shall not exceed 40% of the net value of the company.

Note 11: The total limit of capital loan and total set by ShenZhen HOWTEH Technology Co., Ltd. shall not exceed 60% of the net value of the company, and the maximum loan limit for a single object shall not exceed 40% of the net value of the company.

Attached table 2: Collaterals/Guarantee Provided

0	Howteh Technology Co., Ltd.	Giteh Electronic Industries Co., Ltd.	2	$384,141	$94,950 (USD 3,000)	$94,950 (USD 3,000)	$-	$-	6.18%	$768,281	Y	N	N
0	Howteh Technology Co., Ltd.	Howteh Vietnam Co., Ltd.	2	384,141	9,495 (USD 300)	9,495 (USD 300)	-	-	0.62%	768,281	Y	N	N

Note 1: The description of the number column is as follows:

(1) Issuer fill in 0.

(2) Investee companies are numbered sequentially, beginning with the Arabic numeral 1.

Note 2: There are the following seven types of relationships between the endorsement guarantor and the endorsed guarantee object, and the types can be indicated:

(1) There are business dealings between companies.

(2) Companies in which the company directly and indirectly holds more than 50% of the voting shares.

(3) A company in which more than 50% of the voting rights are directly or indirectly held in the company.

(4) A company in which the company directly and indirectly holds more than 90% of the voting shares.

(5) A company that is mutually insured by inter-industry or co-sponsors in accordance with the provisions of the contract.

(6) A company that is endorsed and guaranteed by all contributing shareholders in accordance with their shareholding ratio due to a co-investment relationship.

(7) The performance guarantee of the pre-sale house sales contract is jointly and severally guaranteed in accordance with the Consumer Protection Law.

Note 3: Endorsement guarantee method: The total amount of endorsement guarantee shall not exceed 50% of the company's net value, and the amount of endorsement guarantee for a single enterprise shall not exceed 25% of the company's net value.

Note 4: The maximum amount accumulated up to this month is the highest guaranteed balance of endorsement for the current year.

Note 5: By the end of the year, the company shall bear the endorsement or guarantee liability when the amount of the endorsement guarantee deed or instrument signed by the company to the bank is approved; Other relevant cases with endorsement guarantee should be included in the balance of endorsement guarantee.

Note 6: The actual amount of expenditure is the amount of expenditure under the guaranteed amount of the parent company.

Note 7: Those who are endorsement guarantors of the parent company of the listed stock exchange to the subsidiary, endorsement guarantors of the subsidiaries to the parent company of the listed stock exchange, and endorsement certificates belonging to the mainland reg

Note 8 The exchange rate is based on the ending exchange rate.

Ending exchange rat	Average Exchange Rate :
USD=31.65	USD=31.1775
HKD=4.075	HKD=4.002
RMB=4.523	RMB=4.425

Note 4: Eliminated in the consolidated financial statements.

Attached Table 8: Information on major shareholders

(Unit: one share)

major shareholders	Holding shares			
	Number of common shares	Number of special shares	Total number of shares held	Shareholding ratio
Hui-Hong Investment Co., Ltd.	5,634,875	-	5,634,875	8.65%
Chen Kuo-Hung	5,548,984	-	5,548,984	8.51%

Note 1： This table is based on the last business day at the end of each quarter, and the total number of ordinary shares and special shares held by shareholders of the company that have completed the non-physical registration delivery (including treasury shares) reaches more than 5%.The number of shares recorded in the company's financial reports and the number of shares actually completed without physical registration may differ depending on the basis of the preparation and calculation.

Note 2： If the above information belongs to the shareholders who deliver the shares to the trust, they will be revealed in the separate accounts of the settlor who opened a special trust account by the trustee.For insider equity declarations filed by shareholders holding more than 10% of the shares in accordance with the Securities Exchange Act, including shareholding plus shares delivered to the trust and having the right to decide on the use of trust property, please refer to the Public Observation Information Station for the reporting materials.

Note 3： The principle of preparation of this table is to calculate the distribution of credit transaction balances from the register of securities owners (excluding securities lending) that the shareholders' temporary meeting has stopped transferring.

Note 4： Shareholding ratio (%) = total number of shares held by the shareholder / total number of shares that have been delivered without physical registration.

Note 5： The total number of shares (including treasury shares) that have been delivered without physical registration is 65,129,792 shares = 65,129,792 (common shares) + 0 (special shares).
